THE CHAIRMAN LIPAKALA DAY ORGANIZING COMMITTEE DR SUNDAY ADEKUNLE SOLARIN, FCA

Protocol

I stand here today very humble and thankful to Almighty Allah for sparing our lives and for His unblemished and impregnable wall of protection around us and our noble community.

It took a lot of sacrifice on my part to accept this honorable position as chairman of the 2025 Central Working Committee for Lipakala Day Celebration. I am a strong supporter of community development and growth, and I have been actively involved in that cause since I left secondary school, when I and a few dedicated colleagues spent our time tutoring and building the most important life skills by providing free mental and educational tutorials to young people because I firmly believe that "an informed man is an asset to the world in microcosm." Nevertheless, after considering the idea that a man whose service was requested by his community is undoubtedly a valued man, I accepted the clarion call to serve without further ado.

The Ogere community is indeed our Jerusalem, and our fathers have cultivated and nurtured a spirit that thrives in excellence, showcasing our mettle. Every Ogere son and daughter was born with courage, resilience, faith, and determination to succeed in their endeavours.

As a young boy growing up in the neighborhood, Gbeunloku, to be precise, a small homestead carved out from within the hinterland of the Ogere community, counted as an ancient homestead, where our ancestral home originated. The dream of our fathers was to strive and hand over a better life to us all; we were taught about discipline and mutual respect as one of the precursors to success and progress in life and were chastised when we derailed from such noble character because in building a pristine community, we must also build on strengthening our spirit for the jobs ahead. It is the spirit first that connects us to our roots, where we can generate the full potential to help us as a people, unite, to defeat everything that stands opposite "growth and development," as it were.

I must admit that our town is transitioning from ancient arcade infrastructure to a few modern structures replacing the old ones, and we must not rest on our oars until we unitedly take Ogere to the pinnacle of true growth.

A few years ago, I witnessed firsthand the curated efforts of the Ogere Community Development Association (OCDA) to properly take the Ogere Community to a better position through its constant networking activities, community development programmes, and carving out a strong framework in advancing a true structured development plan for the Ogere community.

I like to associate myself with success because an eagle must soar and must not be seen to coexist with dogs, so these activities, led by Evang. Temitayo Ladejobi, won me over and served as another catalyst for my acceptance as the chairman of this esteemed 2025 Central Working Committee responsible for hosting the Lipakala Day Celebration.

If you were away in Ogere for just three years and came back today, perhaps you could find yourself walking in awe of the few present structural developments that have sprung up within the community today. Evidence of growth and development commanded by the office of His Royal Highness, Oba James Obafemi Saliu, the Kankanbina III, Arole of Lipakala, the Ologere of Ogere.

The masterfully built community Royal Palace stands as a

reference of power and authority, nestled in a very strategic point, that pedestrians and travellers alike admire...this itself, is a leap of faith into living in one of our desired futures.

Equally amazing is the Lipakala Cultural Centre, which was carved out with signals and emblems of our culture and tradition, where the pictures of our heroes, dead and alive, are mounted on walls for archival and excursion purposes.

With all these beside us, we must understand that we have much more to achieve such that we do not become complacent. We need to continue to roll the wheels of progress and development and lubricate those in existence to prevent rust and abandonment. Ogere is our home, especially for those of us who are spiritedly rooted and connected to this place; we do not have any other ancestral place. No matter how long some of us stay outside, home is still the best.

If we truly desire a community likened to the ones seen in the most advanced world, we have to understand that apart from the very meticulous planning, systemic automation, structural monitoring, and holistic execution, it primarily requires deep-pocket funding; giving continuously until the vision is born, where infrastructures are made to adorn the skyline as colorful and as bright as the stars that dot the sky. "If we can think it, we can see it"

I am grateful to the set of vibrant and highly spirited committee members working tirelessly with me in order to present our darling town a very befitting Lipakala Day Celebration; their support and timeless input have been very resourceful. Despite the numerous daunting and challenging moments that interjected our activities at times, we gave all to attend online and physical meetings just so everything could work out well as planned. I am indeed very grateful to all of you!

I thank the entire Ogere Community Development Association for their support during the past weeks.

Before I take my seat, I seize this moment also to kindly appeal to everyone to donate handsomely into the OCDA coffers, as I trust very well in their commitment to bring to life all the development activities lined up within their purview for which this call is made. A widow's mite is equally appreciated as God blesses all together for this reason.

I appreciate dearly all of our guests, who came from far and near, who within their very busy scheduled still because of their love for mankind, left all their responsibilities to attend this auspicious occasion of our progenitor's day. All of them are actually friends and lovers of the community who have always been responding to calls for donations towards the community building. To all the Egbes, clubs, and associations who are truly committed to advancing the bettering of this community, I thank you all for your efforts. It is only God who can pay appropriately.

I sincerely welcome you all on behalf of our Royal father, Oba James Obafemi Saliu, Kankanbina III, the Ologere of Ogere-Remo.

I wish you all a fulfilled moment. Thank you very much for your attention.

Ogere a gbuj o!!!

A WELCOME ADDRESS BY THE CHAIRPERSON, OGERE COMMUNITY DEVELOPMENT ASSOCIATION (OCDA), EVANGELIST (MRS) TEMITAYO LADEJOBI AT THE 49TH FOUNDER'S DAY CEREMONY OF OGERE REMO ('LIPAKALA DAY), HELD AT THE WESLEY PRIMARY SCHOOL PLAYGROUND ON SATURDAY, OCTOBER 18, 2025.

Protocol.

Good afternoon everyone!

It is an absolute honour to stand before you today as the President of our noble Ogere Community Development Association, a flagship of all associations within the town.

As I look out at this gathering, I see the faces of those who make this place we call home truly special: the dedicated volunteers, the hardworking families, the young dreamers, the wise elders, the enthusiastic well-wishers, and the very esteemed guests who have built the foundation we all stand upon. Thank you for being here. Your presence alone demonstrates the spirit that unites us.

Mahatma Gandhi once said, "You must be the change you want to see in the world." I have personally been inspired by this simple yet profound quote that wields so much influence in my consciousness and has always directed my path in this world.

This has fueled my passion since I became the arrowhead of this noble community association. I have always told my hardworking executive members, who have all stood tall in their capacity as true heroes, to always be the change we crave.

In the last few years, since we took the baton as the new faces of this association, we have pledged and indeed made wholesome changes through the provision of a good leadership model that guarantees and encourages peaceful coexistence among the inhabitants of this noble community, since that internally reflects the craving and aspirations of our forefathers to live as one indivisible entity, regardless of our different political aspirations, religious colourations, educational backgrounds, etc.

Though difficult due to varying degrees of individual and group parochialism, with shared dedication and commitment, we can accomplish so much along this corridor, bringing the truly peaceful accord that drives and fires development at all levels. A place where our children will one day look back and say, "This is what unity looks like."

In driving the association forward, we have had to commit ourselves to at least monthly physical executive meetings where deliberations, arguments, oppositions, collaborations, and other rituals for progressive contributions take pre-eminence. Before today, we have had 56 meetings, which docked on the paths of progress to follow; we have remained truly committed also thus.

I must admit that the journey so far has been a tough terrain, which has equally presented its attendant challenges because of the dearth and scarcity of funds to execute all the projects at hand, but God has been the

backbone walking with us all along.

I must seize this privilege to gracefully thank our amiable Kabiyesi, Oba James Obafemi Salu, Kankanbina III, for his unfettered love for this town and for championing the cause to gift our community a grand official palace, unprecedented and welcoming in its class. Of course, this feat would not have been easy without the support of all the sons and daughters of Ogere at home and in the diaspora, who gave to see this a success. Kabiyesi, ade a pe lori, bata a pe lese, esin oba a j'oko pe, irukere a po l'afin, Oloria sise ibio.

Aesthetic values have also been skillfully incorporated into the Lipakala Cultural Centre, where the faces of illustrious sons and daughters of Ogere are emblazoned and framed on a wall of remembrance in pictorial format, serving as a source of inspiration for many sons and daughters in the community. Thank you, Kabiyesi, for this noble innovation.

Our community isn't just a collection of houses and streets and untarred roads; it's a living, breathing tapestry woven from the stories, culture, tradition, efforts, and aspirations of every single one of us. We have achieved so much already; however, looking at what lies ahead, in terms of our needs as a community, much more still needs to be attended to.

From the perspective of our theme, "Unlocking potentials, celebrating our growth," it speaks expressly of the fact that we have left off where we used to be as a community and have progressed materially, infrastructurally, and mentally as a people; this itself calls for celebratory applause. However, it is also a reminder that we have so much to attend to all the same.

On this note, I would like to kindly request your generous donations towards the completion of our Township Hall, which is nearing completion; already in its final stage. These accomplishments did not happen by chance; they were all made possible through sacrificial giving and deliberate donations.

Sincerely, the truth about growth and development and project execution is that as you focus on one, others of equal importance emerge, demonstrating that the building process is a continuum.

Any society or community that has experienced extensive growth and development has done so through consistent and continuous giving. As we constantly nourish and feed our bodies as they crave foods to survive, our community also yearns for our contributions to replace worn-out structures or systems with modern infrastructure, resulting in a better livelihood and way of life for the community's residents.

On that note, I stand here with an open heart to kindly

request that everyone, from the bustling neighborhood of Itajiren and Itunseje and all the 'Ituns' and their environs to the newly developed Akuro, Aiyegbami, Araromi and their bubbling environs, rise to put Ogere on the path of true growth. I beg the Old Students' Associations of schools to flag off programs that improve the students' conditions and the different security operatives within the town to man their space appropriately. The Egbes, Clubs, and Associations need to do more through their community service and social integration. If everyone acts well, we will see the progress we desire come alive before us.

I am glad to state that Ogere has always been favoured and systematically positioned for greatness. This understanding stems from my spiritual conviction for the community, which I can not really emphasize right now.

No society on the path of progress has stood alone; there have been impacts, contributions, support, and aid from others who live outside those societies. With that in mind, I am extremely full of joy and emotion for the guests who in the past have contributed immensely to the growth and development of Ogere as well as those special guests who have been invited to this year's grand finale today, who, though not born here, have taken a form of acculturation and citizenship by naturalization because of their bold love towards this town. I am grateful and earnestly pray that God continues to bless and strengthen you all.

Helen Keller puts this quote thus: "Alone we can do so little, but together we can do so much."

The 2025 Lipakala Day Celebration Central Working Committee, under the chairmanship of Dr. Sunday Solarin FCA has demonstrated immense initiative, ranging from giving us the Ogere Anthem and flag to numerous initiatives that will drive growth within our community. I appreciate you all!

If I fail to mention the worthy initiative and effort of one of our darling illustrious sons, Engr. Babatunde Osho, who in his capacity facilitated the tarring, culverts placement, and street lightings of one of our hinterland roads, which is Akuro Phase 2, this address would not have been complete.

Indeed, this has added more beauty to the neighbourhood with accompanying security capacity. On behalf of the entire community, I say a big thank you, Sir. We crave more of this as a community.

It is an honour to welcome us all once again to this 2025 epoch-making Lipakala Day Celebration.

In unity, we stand. Ogere-Remo deserves our attention, and donating handsomely is one of the ways we obey its clarion call. True brotherhood fosters spirited growth and coexistence.

Honourable community members, special guests of honour, distinguished ladies, and gentlemen, I wish you a very memorable and glorious stay going forward.

God bless Ogere Remo,
God bless you all.

In Loving Memory
Adetokunbo Oremuyiwa
(iyalaje of Ogere)

I am the wind in the trees and the song of a
bird,
I am moonbeams in a midnight sky, a rainbow
after a storm,
I sing in the morning dew and freshly fallen
snow,
I am a butterfly flying overhead, a wave
against the shore,
I am a gentle touch, a warm embrace-
Just open hear to know,
Reach deep within your soul to see, I am with
you, and will always be.
